

# Before and After Photo STEM Edventure

[Original](#) | [Polished](#)

All photo submissions that include students must have parental permission consent on file with your organization. If permission has not been granted, blur or crop out their faces. If you are unable to do that, it's ok, just make sure to include instructions below the caption for each photo.

Disclaimer: These are only examples and not an exact representation of original photos or final application.

## Katie's STEM Edventure

Dirt Camp at  
Idaho Botanical Gardens

### Easy Set Up

The setup for this program was so easy. All the materials were provided.

### Time Management

I loved how the Dirt Journal cover doubled as an activity that could be used throughout camp.

### Age-Appropriate

Students needed minimal assistance to complete the activities.

### 21st Century Skills

The program was packed with science skills and STEM connections.

### Cross-Curricular Connections

The mud cloth paintings were a great ELA and Arts connection.

### Hands-On Learning

Building Crayfish Chimneys was one of our favorite activities.
